

# FALL 2011

## Advising & Registration Worksheet

Name: \_\_\_\_\_

Advisor: \_\_\_\_\_

The following pages will help you best prepare for your academic advising session during the week of March 21 and registration during the week of March 28. Please make an appointment with your academic advisor, prepare this worksheet as best you can before your meeting, and take the worksheet with you to your advising appointment to review with your advisor.

### Four-year Academic Plan:

If you have never done so before, fill out as best you can the following four-year plan. For past/current semesters, fill in what you have taken or are taking. For future semesters, outline a possible curriculum that helps you accomplish your goals: Core, major(s), minor(s), electives, study abroad, internships, research, etc. Depending on your year, you might fill this in more or less completely. You should use the list of Spring 08 courses to be offered as a guide for completing your spring plan.

Sr.				

You have access through your Gateway to the list of Core requirements satisfied as currently recorded by the Registrar's Office. It is useful to review, and if necessary update this each semester.
